SUMMARY

Frontend Developer with 3 years of experience architecting enterprise-grade CRM, ERP, and business automation platforms on React.js, Next.js, and TypeScript. Leads frontend development for multi-module systems spanning the full order lifecycle — enquiries, proforma invoicing, order management, inventory, warehouse operations, and dispatch — alongside e-commerce (Shopify), logistics (Porter, Bluedart, Shiprocket), and payment (Razorpay) integrations. Builds AI-driven automation using OpenAI, Gemini, and Perplexity APIs, OCR-based document processing, and WhatsApp-based messaging workflows. Works closely with backend engineering to design real-time, API- and WebSocket-driven interfaces that scale across multiple sales channels and internal CRM systems.

PROFESSIONAL EXPERIENCE

Frontend Developer (React.js / Next.js)

Partsklik LLP | Sep 2024 – Present | On-site

- Lead frontend architecture for three enterprise-grade CRM and business automation platforms built on **React.js and Next.js** — covering the full order lifecycle from enquiries and **proforma invoicing (PI)** to **packing lists (PL)**, order management, inventory, warehouse operations, and dispatch — used daily across multiple business units.
- Architected a multi-location store management system with **role-based and individual-level permission controls** and real-time search, replacing manual, spreadsheet-based operations for the business.
- Designed a dispatch-aware sales engine with **tiered pricing logic** and **live stock validation**, eliminating overselling and pricing errors during high-volume order cycles.
- Own the platform's third-party integration layer — **Shopify** for product listings and multi-channel order sync, **Porter, Bluedart, and Shiprocket** for shipment booking, tracking, and real-time delivery dispatch, and **Razorpay** for payment processing.
- Built **OTP-based authentication** with permission-gated routing, and **real-time analytics dashboards** with live KPI visualizations giving leadership visibility into sales, inventory, and dispatch performance.
- Drove AI-driven automation across the platform — **OpenAI, Gemini, and Perplexity API** integrations, **OCR-based document processing**, and **WhatsApp-based automated messaging** — cutting manual data entry and manual customer follow-up.
- Built a **scan-based (barcode/QR) workflow** driving warehouse and product handling end-to-end, backed by responsive, **mobile-first interfaces** for on-floor operations staff.
- Engineered data synchronization across **multiple internal CRM systems**, and integrated a self-hosted **Synology NAS** into the CRM for centralized internal file storage, viewing, and management.
- Partner closely with backend engineering to design scalable **REST- and WebSocket-driven interfaces** that ship end-to-end without hand-offs.

Frontend Developer

DigiIndia Solutions | Sep 2023 – Sep 2024 | On-site

- Delivered **35+ responsive, SEO-friendly websites** across healthcare, e-commerce, and education industries using **React.js, HTML, CSS, Bootstrap, and Tailwind CSS**.
- Built **dynamic dashboards** and **role-based systems** for real-time business applications, contributing to scalable frontend experiences.
- Collaborated with cross-functional teams to integrate APIs and improve platform usability and performance.
- Maintained clean, reusable, scalable code following modern frontend practices, using **Git/GitHub** for version control.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI (MUI)

State & Data: Redux / Context API, Axios

Domain: CRM Development, ERP Systems, Order & Inventory Management, Warehouse Management, Business Automation

Integrations: Shopify API, Porter API, Bluedart, Shiprocket, Razorpay, REST APIs, WebSockets

AI & Automation: OpenAI API, Google Gemini API, Perplexity API, OCR Integration, WhatsApp Automation

Tools & Backend: Git, GitHub, Recharts, Postman, MySQL, MongoDB, Django, Synology NAS

EDUCATION

Master of Computer Applications (MCA) — In Progress

Lovely Professional University (LPU) | 2026 – Present

Bachelor of Computer Applications (BCA)

IGNOU University, Delhi | Jan 2022 – Jul 2025
